

National Leprosy Elimination Program (NLEP), Odisha

Objectives of 12th five year plan:

- Elimination of leprosy i.e. PR < 1 case/ 10,000 pop. in all districts of the country
- Strengthening of DPMR services for persons affected by leprosy
- Reduction in the level of stigma associated with leprosy

Table 3- Leprosy status, Odisha, up to January 2015

Indicators	2010-11	2011-12	2012-13	2013-14	Up to Jan 2015
No. of new cases detected	6742	8312	8226	10645	5732
ANCDR/100,000 pop	15.83	19.54	19.07	24.4	16.55
Under treatment cases	3554	4219	4737	6405	4461
Prevalence rate /10,000pop	0.85	0.99	0.98	1.47	1.02
Grade II disability	261	254	265	449	254
Grade II Proportion	3.87	3.06	3.22	4.22	4.43
Treatment Completion Rate	98.54	98.86	98.09	97.8	-

Table 4- Leprosy status (Achievements during 2014-15):

Sl. No	Activities	Planned	Achieved
1	Implementing BLCC (Block Leprosy Control Campaign)	76 Blocks	76 Blocks
2	Urban Services	10 Urban	10 Urban
3	Medical Officer Training (AYUSH)	240 Nos	245 Nos.
5	Medical Officer Training	120 Nos	88 Nos.
6	Management training of DLC/PT	30 nos.	25 nos.
7	Training of MPHWs	180	Nil

8	Training Of ASHA at District level	5000 Nos	4000
9	Procurement of MCR	6000 Nos.	6000 Nos.
10	Procurement of Ulcer Kits	5000 Nos.	5000 nos
11	Reconstructive Surgeries	300 Nos	250
12	IEC Activities (Print & Electronic media)	-	Completed
